Grooving

Something different.
Aurora V-Grooved mirror
mounted on a brown
Aurora Panel.

Custom

Aurora Custom Mirrors are something special. They are unique and they are individually crafted to meet your design. They can be a striking feature in any room or they can be functional and subtle, blending into the room. Be inspired by the amazing versatility of Aurora Custom Mirrors.

Thinking outside the square

Using our innovative glass cutting technology there is almost no limit to the shapes, angles and curves that we can make. And it isn't only around the outside edge of the mirror. Our state of the art equipment can cut shapes within the mirror too so that you can create a truly unique and personal design statement.

So now you have the shape, but what else can we do?

Aurora Custom Mirrors can be so much more than just a funky shaped mirror. We can put a pattern on the mirror using our innovative Aurora V-Groove technology. These can be lineal patterns or freehand curves – whatever suits you and your design themes.

And when it comes to mounting your mirror you will be amazed at what we can do

Mounting your Aurora Custom Mirror on top of an Aurora Panel, either painted or mirrored, can turn your mirror into a piece of art. Or you can have your mirror inserted into an Aurora Panel creating a border unlike anything you've seen before.

So what about the edges?

Depending on the location, function, and design, there are a range of options for finishing the edges of your Aurora Custom Mirror.

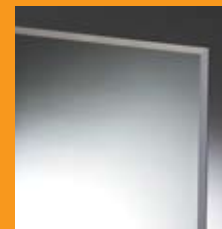

Framed

Available on straight edge designs only. Frames are available in a range of standard and custom colours.

Microframe

Available on straight edge designs only. The polished chrome frame creates a subtle border.

Polished edge

Available on all designs. Polishing gives a smooth, frameless finish to the edge of the mirror.

Bevelled edge

Available on all designs. Beveling retains the frameless finish but adds a feature to the edge of the mirror.

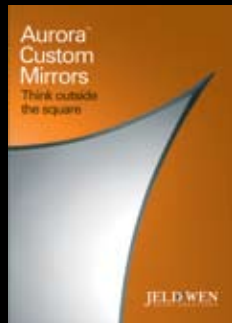

Aurora

Aurora Inspired Glass

Aurora Mirastar

Use mirror where you've never used it before.

Aurora Custom Mirrors

Design your own unique customised mirror.

Aurora Doors

The next generation of frameless wardrobe doors.

Aurora Panels

The question is "Where can't you use glass?"

Aurora V-Groove

Engraving will change the look of any glass or mirror.

Aurora Splashbacks

Replace tiles with custom coloured toughened glass.
